ABOUT THE PROGRAMME

In order to keep the Student members abreast of these changes, it has been planned to organize a two day Workshop on “Industrial automation” recognizing the importance of this endeavour.

These two days Workshop aims at providing the necessary background and training in theoretical and practical training in Programmable Logic Controller and to provide a common platform to the UG students, faculty and Industry persons to share their knowledge with each other.

The contents of the programme are:

- Importance / necessity of PLC in Automated industries
- Details about various sensors, transducers, actuators, etc
- Full overview about PLC applications
- Learning of Ladder programs
- Hands-on training using PLC kit with relay circuit.
- Individual simple task activities,
- The sessions for this workshop will be handled by eminent professors in this field along with industrial experts in PLC.

ABOUT THE COLLEGE

Sri Vidya college of Engineering & Technology was established in the year of 2008 with the motivate of taking higher education to the nearby villages in general and rural people in particular at all levels of economic platform. The college is approved by AICTE, New Delhi and affiliated to Anna University, Chennai. With a multi disciplinary approach, the college offers five UG programmes, three PG programmes in Engineering & Technology and one PG programme in management studies. The college offers ample facilities to enhance students’ individual development, and opportunities to hone their skills. ISTE student chapter started from 2014, at present 120 members are present and 100 members will be applying to get a member ship.

ABOUT ISTE

The Indian Society for Technical Education is a national, professional, non-profit making organization of educators in the field of engineering and technology started in 1941 as the Association of Principals of Technical Institutions (APTI), and later converted into “Indian Society for Technical Education” in 1968. The major objective of the ISTE is to assist and contribute in the production and development of top quality professional engineers and technicians needed by the industries and other organizations.
